

Introduction to Mental Health & Wellbeing in the Workplace

WORKPLACE
TRAINING
& SUPPORT
SERVICE

Target Audience: **Individual (all levels of employees)**

Workshop Duration: **90 minutes**

Recommended Group Size: **Min. 6 – Max. 16**

Workshop Overview:

Workplaces have a vital role to play in providing supportive environments that promote mental health, wellbeing and resilience in its people. This 90 minute introduction to mental health and wellbeing is designed as the first step towards providing an understanding of what mental health is. Through this understanding participants undertake activities to reflect on their own mental health and wellbeing and develop an action plan to support improvements where needed.

Primary Objectives:

- Support the development of a mentally healthy workplace.
- Improve knowledge and understanding of mental health and wellbeing.
- Encourage individuals to take a look at their own overall mental health and identify some positive changes.

Learning Outcomes:

- Increased understanding of mental health and wellbeing.
- Understanding the importance of creating a mentally healthy and supportive workplace.
- Development of individual mental health and wellbeing action plans.

Key Topics:

- Duty of care
- What is mental health?
- Mental health issues vs mental illness
- Looking after our own mental health and wellbeing and seeking help if needed
- Time management and work-life balance
- Individual action plans to improve mental health and wellbeing

Resources:

- Comprehensive manual
- Mental Health information and referral pathways
- Practical skills and exercises
